COC Farmaceutici
Your solution in a drop

TUBILUX Pharma
Only for eyes

We are a pharmaceutical CDMO established in 2020 as a result of the union of C.O.C. Farmaceutici and Tubilux Pharma, offering a complete service for contract development, manufacturing and filling of pharmaceuticals, medical devices, diagnostic devices, veterinary products and cosmetics for ophthalmic, nasal, respiratory and topical applications.

Whether in liquid, cream, gel, lyophilisates or ointments form, products can be manufactured in sterile or non-sterile environments and packed in single-dose and multi-dose containers –also in preservative-free version- as well as plastic, polyfoil and aluminium tubes.

With 33 automated production lines and 3 plants of which two authorised by AIFA and one of them also FDA approved, we operate in compliance with European GMPs and in accordance with the ISO 13485:2016 and ISO 22716:2007 standards.

PRIVATE LABEL
PRODUCTS READY TO BE DISTRIBUTED

We offer customers a complete range of medical devices for nasal and eye care, ready for customisation with the graphics and brand of the distributor. They are CE-marked and can be sold in EU and non-EU countries, once they have been registered locally.

EYE CARE

A complete range of drops for eye care and for the most common eye problems, in single, multi-dose containers and polyfoil tubes with or without preservatives and available also in a spray version. The products combine the action of plant ingredients with cellulose and/or sodium hyaluronate, also in an innovative cross-linked version with a prolonged action. Thanks to their soothing and hydrating properties, the drops help alleviate redness, tiredness and irritation.
