Factors influencing nasal sprays consumption

What are the benefits of seawater?

The use of nasal irrigation dates back centuries to **yogic and ayurvedic** traditions where hypertonic saline solutions were used for nasal irrigation for **purification purposes** as part of the preparation process. Western medicine has adopted this practice since the 19th century when **nasal irrigation** has been recommended for the treatment of **sinonasal pathology**.

In 1897, the French biologist René Quinton proved that there were similarities between the mineral **composition of seawater** and the interstitial milieu and **blood plasma**. He concluded that the human body must surely react well to treatments and preparations that contain substances from the sea.

Gulf Stream Sea Water ®

Bréhat Archipelago, Brittany

Gulf Stream Sea Water ®

Gulf Stream Sea Water is a **soluble powder** obtained from seawater collected in the Bréhat archipelago in Brittany - away from all urban and industrial activities in order to guarantee **maximum purity**.

Gulf Stream Sea Water ®

Amazonia forest,
The Earth lung

Bréhat Archipelago,
the Ocean lung

The **Gulf Stream** originates from sea bathing the **Amazon forest** and like a vital artery it crosses the Atlantic Ocean, ending in the sea of the **Bréhat Archipelago**.

The water of this current crosses the ocean and along its path is enriched like a "**marine plasma**" of the most varied species of **plankton** and coming into contact with the deepest and **cleanest seabed**.

Finally, it arrives in the sea of the Bréhat Archipelago giving this ecosystem essential **minerals, ions, trace elements, oxygen, iodine** and a mild temperature favoring the growth of the most extraordinary algae on the planet.

Gulf Stream Sea Water ®

PROPERTIES

**HELP CLEAN THE NASAL CAVITY BY
REMOVING MUCOUS**

REDUCES MUCOSA IRRITATION

SOOTHING

for irritated mucosa

The product

**ISOTONIC MULTI-ACTION PRODUCT
MADE FROM NATURAL COMPONENTS, STERILE AND
PRESERVATIVE FREE**

- Naturally rich in **mineral salts** and **marine trace** elements and enriched with **plant extracts** and/or other components with **protective, moisturizing, decongestant** and helping **relieving allergic symptoms**
- Recommended for **daily cleansing** of the nasal cavities, to humidify dry nasal mucosa, in case of **nasal congestion** following a **cold and/or sinusitis** and as a complement to **treatments of allergy symptoms**

Allergy

With Sea Salt, PVP and Aloe Vera Gel

SWEETCLEAN ALLERGY

COMPONENTS' PROPERTIES

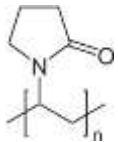

SEA SALT

It helps clean the nasal cavity by removing mucous and reducing irritation of the mucosa.

ALOE VERA GEL

Aloe vera gel known for its protective and hydrating action, creates a barrier film that protects the nasal mucosa from contact with allergens

PVP

Soothing polyvinylpyrrolidone helps boost the protective film-forming effect of mucosa

The primary packaging: APF Spray system

APF

ADVANCED PRESERVATIVE FREE

Thanks to the partnership with Aptar Pharma, we are able to **provide production, filling and packaging** services for **preservative-free nasal products** in the APF (Advanced Preservative Free) device, the spray bottle for delivering preservative-free nasal products till their very last drop.

Main features

APF

ADVANCED PRESERVATIVE FREE

- APF System maintains **sterility** of formulation

- As the orifice is sealed while not in actuation mode, **no contaminated air** or liquid can be sucked back into the pump

- Qualified with challenging **microbiological tests**

- **Pharma** compliance

- Line extension

- Reflecting **social trends**
